

TAKING ACTION TOGETHER – PHONE ZAP

Hi, my name is _____, and I am an OMERS plan member. I am calling to let you know that my best interests would have been better served by a stronger investment return record. I know the best way to address this issue is through an independent, transparent review of OMERS' investment performance led by representatives of hard-working plan members, like CUPE Ontario, and other sponsors. I am calling on OMERS' leadership to immediately indicate they will cooperate fully with such a review.

Clearly, there is a problem at OMERS that needs to be fixed. Thank you for your time. You can return my call at _____ (insert your phone number here if you would like them to return your call).
